# HAMILTON BANK FOUND SOLVENT BY EXAMINERS

examiners of the State of Banking. This was good M. W. Entohins at the New the State Department in

progress for a week, and as enclusively forecasted in The Evening Freed, the institution was found to be

Mr. Hutchine spent Sunday with Mr. ne in Albany, and together they reviewed the work of the examiners and appraisors. The \$50,000 joint note sich grew out of the sale of the Prov-Ment Savings Life Assurance Society by E R and O. F. Thomas to the Philadelphia syndicate was not listed as an asset, for the good faith of the bank to question at the time of the making of the note, with E. R. Thomas as the President.

Matther were the \$200,000 loans to F Augustus Heinse and his brother. Otto Heinse, put among the assets, as the security given consists largely of stocks with a speculative value.

Has a Surplus. However, the Hamilton Bank was given a small but nevertheless assured surplus, and it is understood that the terms of the Superintendent of Banking in regard to reserves will be most

lenient. Mr. Williams himself will be down from Albany on Wednesday, when the arrangements will be completed for the resumption of the bank. It is believed that it will resume business Monday, Jan. 20 Henry Martin, Adolph Reisenberg

Henry Martin, Adolph Resembers and Mr. Ide are believed to be the ening mambers of the old board of directors who will remain with the institution. The requirements of the Superintendent of Banking call for the putting up of \$500,000 cash by the new management, and it is understood that arrangements have been under way for this amount of money by which the assets will not be in any way jeopardized as the security.

WIII Have \$1,800,000.

Will Have \$1,800,000.

The main purpose of the examination made last October at the time the bank of osed, it is explained, was to preserve the assets. For that reason this examination conducted by Examiner Brock. Shears did not peas upon the value of the assets, as the work had to be done hurriedly. The extent of the task is shown in one instance by the Tremont branch, where 4,000 different loans had been made.

Mr. Hutchins's re-examination of the assets was naturally more severe than that conducted by Mr. Shears, for his quest was to establish the basis for a resumption of business, and he has charge of not only the bad assets, but the doubtful assets as well.

The Hamilton Bank has about \$500,000 cash on hand at the present time. Within a week before the reopening Monday next \$500,000 more can be collected. This money, together with the \$500,000 additional required by Supterintendent of Banking Williams will give the institution \$1,800,000 cash on hand when it resumes.

resumes.

The State Department in Banking assumes, after paying \$1,000,000 to non-assenting depositors and the first installment of 10 per cent. to those who have assented, that \$800,000 will be ample to conduct the business of the bank and most immediate future requirements. Election To-Morrow.

Election To-Morrow.

Following the conference with Mr. Twochins at No. 52 Broadway James Gifford, counsel to the Hamilton Bank, went to his office in the Hanover Bank Building, where a statement was made in which the reopening of the bank was definitely announced to take place not later than Jan. 20.

'In all probability we shall resume on Saturday, Jan. 18," said Mr. Gifford to a reporter for The Evening World, but as that is only a half-day in the banking world you had best make the announcement for Jan. 20."

Mr. Gifford stated that the annual election of officers of the bank will be held to-morrow, at which time new directors will be selected. William R. (Montgomery, the President, who succeeds! E. R. Thomas, it is understood, will be dropped as a director. Frank L. Grant, who was elected President on Jan. 1, will be made a director and reelected President.

'The examination of the Hamilton Bank by the State Department in Banking establishes the financial strength and soundness of the institution," said Mr. Gifford. "The bank has been found to be entirely solvent, and after charging off all doubtful assets and deducting the expense of the receivership, a very substantial working surplus remains."

MAPPED HIS AILMENT.

Applicant for Treatment at Bellevue Drew Chart of Stomach, Indicating Trouble.

Jacob Kesselman, deaf and dumb and waiting to be taken in for treatment.

Dr. Leroy Smith, an admitting physipaper and a pencil. Then he sat down at a desk, drew a fairly good diagram of a stomach and intestines and put arrows at the lower part of the atom-

arrows at the lower part of the stomach.

Dr. Smith immediately examined him and found him suffering from gastric trouble. Dr. Smith was unable to find any one who knew the sign language and was unable to learn from Kesselman his address or anything else. He sent the patient to a ward to await another examination. He thinks Kesselman has been treated before for stomach and intestinal affections, and that he must have been shewn on a chast warm the trouble man.

# Another Remarkable Sale of Women's and Misses' Coats=less than half
